

The new range of mobile bag holders for waste collection and disposal comes in 2 heights and 3 versions :

**900 mm** for general use

**700 mm** to fit under a table

- with pedal cover and visible bag
- with pedal cover and stainless steel surround
- without lid, visible bag

Their entirely new design gives Tounus bag holders three qualities that guarantee their durability in use :

**STURDINESS - GOOD ERGONOMICS - HYGIENE**

## STURDY

- Made of stainless steel tubing, diameter 20 mm.
- Very rigid bag support consisting of a 4 mm stainless steel flat bar and elastic strap bag fixing system
- Strong and reliable lid opening system consisting of a stainless steel pedal connected to a double stainless steel rod.
- Injection moulded polypropylene lid, rigid and silent in operation.
- 2 smooth wheels Ø 150 mm.
- Generously-sized manoeuvring handle.
- Rigid stainless steel surround with hinged door and latch.

## ERGONOMICAL

- Very easy to move thanks to the large diameter wheels, handle at the rear and bag firmly supported against the rod.
- Lid opened by means of a large pedal.
- Front opens quickly and easily, to allow the bag to be removed completely.

## HYGIENIC

- Smooth lines, gentle curves, no awkward corners, front which opens completely to allow easy cleaning

Descriptions	H (mm)	For bags:	Dim. W x D (mm)	References
bag holder with lid	900	100 - 130 litres	450 x 535	<b>804 465</b>
“ “ “	700	50 -100 litres	“ “	<b>804 464</b>
bag holder with lid + surround	900	100 litres	450 x 535	<b>804 468</b>
“ “ “ “	700	70 litres	“ “	<b>804 467</b>
bag holder without lid	700	50 -100 litres	450 x 535	<b>804 461</b>

### OPTIONS :

- Removable tray for placing on the lower frame\*
  - Labels for sorting waste: 5 colours
- (\*) not suitable for use with the model with surround

## BAG HOLDERS WITH CLIP

### EVEN MORE HYGIENIC

The pedal opens the clip, which consists of two stainless steel jaws covered in rubber. This mechanism allows the bin to be closed hermetically. What is more, the clip results in less air movement when it opens than with a lid. This makes a significant contribution to limiting the risks of air-borne bacterial contamination.

### SPACE SAVING

Another advantage with the bag holder is that it needs less space to open. The 810 mm low model can be kept under a table.

Description	H (mm)	For bags	Dim. W x L (mm)	References
bag holder with clip	810	100 litres	580 x 445	<b>804 452</b>
" " "	970	110 litres	" "	<b>804 453</b>

## CYLINDRICAL BINS

### Cylindrical waste pedal bin:

Stainless steel construction. Leak-proof.  
2 swivel wheels.

Description	H (mm)	Capacity	Ø (mm)	Reference
bin on wheels	615	60 litres	390	<b>804 405</b>
" "	700	105 litres	460	<b>804 407</b>

### Waste bin for fat and bone

This bin consists of a removable, open-ended cylinder, and an independent wheeled base.

Stainless steel construction. Diameter 460 mm, height 710 mm. Lid with chain and hook. 4 swivel wheels. Capacity: 90 litres.

Ref. : **906 505**

## SANITARY WASTE BINS

### "Seizure" sanitary container

polyethylene body and lid + padlock.  
capacity 60 litres

Ref. : **906 517**

### Sanitary container for SRM (specified risk materials)

polyethylene body and lid + padlock.  
capacity 60 litres

Ref. : **906 518**
