

# Chilled Merchandisers

Energy Efficient | LED Lighting | 24 Hour Operation

[www.cedfabsltd.co.uk](http://www.cedfabsltd.co.uk)

catalogue  
2018

CED's Money Maker range of free standing chilled high capacity merchandisers, are the environmentally friendly answer to volume refrigerated "grab n' go" retail sales.

Gently chilled by hydrocarbon (HT) refrigerant, these self-help units are available in a choice of 5 standard widths, 2 depths & fitted with either 3 or 4 adjustable steel shelves. Internal display space is maximized & traditional bottle well storage is provided on a deck below the display tiers. A complete 304 stainless steel interior with bright polished back and inner side panels offer a truly inviting merchandising space, where food display is enhanced by both horizontal & vertical diffused LED lighting (4000 k).

Each model is supplied with an energy saving retractable insulated night blind, 24 hour operational use, forced electric defrost, solid insulated steel end panels and integral evaporation. Each display tier also features a 40 mm ticket strip.

The Money Maker range is also available in both depths, as a lockable roller shutter version, in all sizes. The shutter system comprises an insulated aluminum overhead shuttering in matching silver, with secure twin locking suited keys. Whether standard or fitted with roller shutter, the unit height remains the same.

Each CED Money Maker is mobile & mounted on durable locking castors with a central adjustable foot, for smooth delivery, final positioning & levelling. A heavy duty castor version is also available.

### Main Features

- Compact mobile chilled merchandiser in a range of sizes, for retail locations where space is a premium.
- Features integral energy efficient chilled R290 hydrocarbon refrigeration (HT).
- Self help (fixed back) application.
- 3 tier steel adjustable height shelving, for increased chilled product display area.
- Additional cold deck area, typically used as bottle storage.
- Can achieve temperatures of 0°C to 5°C (max 27°C ambient 55% relative humidity).
- Product illumination is from horizontal & vertical diffused LED lighting (4000 Kelvin).
- Fitted with energy saving retractable insulated night blind.
- Available in 600, 900, 1200, 1500 & 1800 mm wide.
- Slimline unit depth 635 mm (+50), unit height 1725 mm.
- Optional Ø 100 mm heavy duty castor (2 braked to customer side) \*\*unit height increases to 1765 mm\*\*.
- Optional panoramic glazed side panels.
- Optional hook in chrome wire impulse basket.
- 24-hour operation.
- Superstructure in bright polished (internal) and satin (external) steel.
- Bright polished steel rear back panel for typical use in wall sited situation
- Features low-level digital temperature display and control panel (customer side).
- Features 'tamper proof' temperature control facility.
- 40 mm tall 'point of sale' display/ ticket strips are fitted as standard.
- Integral automatic condensate water evaporation eliminates the need for site drainage.
- Supplied with 2m lead, cord wrap & parking socket, for connection to a single 13 Amp socket (13A 230V 50 Hz).
- Removable steel front fascia panel, for ease of cleaning/ service maintenance.
- Modular removable deck plate system for easier cleaning and maintenance.
- Stand off brackets for wall siting included, to ensure adequate unit ventilation.

### Food Display Types

#### Drinks:

Still & carbonated, bottled, canned or carton, water, dairy, lemonade, wine, beer, lager, fruit juice & health drinks. Shelving typically accepts 1/2 litre 240 mm (h) cola bottles/ sandwich packs etc.

#### Food:

Wrapped sandwiches, baguettes, rolls & barm cakes, salad, pasta, cheese snacks, cream cakes & pastries, cakes, yoghurt, cereals, fruit in juice & fruit.

### Options

#### Ø 100 mm Heavy Duty Castor.

Set of heavy duty castors - 2 braked to customer side (200 kg load/ castor). \*1765 mm Unit Height\*

#### Impulse Basket

Hook in Chrome wire basket, continuous open frame type, for local display of ambient product ( crisps etc.) to merchandiser front. Ideal for maximizing impulse sales, meal deal offers. Basket depth accepts 6 x standard 32.5g crisp packets.

#### Panoramic Glazed Side Panels.

Partially double glazed end panels provide a more panoramic view of displayed merchandise, whilst also adding more natural light to the cabinet. Vertical LED lighting is retained to the display area.
