

AN EVEN WIDER CHOICE

The range of **Tournus GC wash basins** now includes 6 models for 6 different ways to equip your kitchen.

Ref. 806 381

- **the simple GC wash basin:** the bowl, with apron around 3 sides and a 29 mm rim at the back, fixes to the wall with screws.

Ref.: 806 383

NEW - **the GC wash basin with 540 mm high splash back:** the splash back is especially designed to make splashes run back into the bowl so that the wall is completely protected against dampness. The splash back includes an integral soap dispenser, capacity 350 ml.

NEW - **the GC wash basin with 790 mm high splash back:** this has all the advantages of the previous model, while the higher splash back brings the additional possibility of fixing a paper towel dispenser, capacity 250 towels.

Ref.: 806 385

All these wash basins have knee-actuated controls, and the tap is turned on by pressing the paddle located on the front panel.

Ref.: 806 387

- **the GC wash basin with electronic controls:** the tap is turned on when the hands are placed underneath the goose neck, and is controlled by an adjustable timer. It is fitted with a 540 mm high splash back and liquid soap dispenser.

Wall-mounted waste bins:

- made of stainless steel
- made of PVC

Ref.: 806 395

Ref.: 806 396

STURDY AND ERGONOMIC

The **GC wash basin** is a sturdy product designed to be long-lasting. It is made of grade stainless steel. It comes complete with a hot and cold water pre-mixer, equipped with check valves in order to protect the mains drinking water supply. It is supplied with the fixing strut, the hose to connect the pre-mixer to the goose neck, the goose neck itself, and the sink pipe and trap.

NEW

The tap outlet has an aerator giving a softer stream of water with fewer splashes.
