

# Kubus (Drop In) Hot Patisserie

900mm Self Help Hot Patisserie (Fixed Back) Shown

900mm Self Help Hot Patisserie (Rear Doors) Shown

## ABOUT

The energy efficient heated patisserie is part of the Kubus range of 'drop in' serve over height patisseries - a choice of cold, hot & ambient commercial drop in displays that fit in servery counter worktops, to suit either self help or assisted service operations.

This 13A Kubus heated drop in patisserie is ideal for the display of pre-heated cooked food, packaged, cartoned or unwrapped heated product. Kubus heated patisseries feature combined static & convected heat, 'point of sale' branding, with optimum product display provided through glazed side panels. The temperature of the 3 heated zones can be independently set by digital displays on the control panel, mounted in the counter front fascia/ rear panel. Product temperature is maintained at 70 - 75°C in +18°C ambient.

All drop in types have removable wire shelf grid covers for use with packaged produce. 40mm ticket strip mounting is fitted to each display level & high temperature 4000 kelvin LED lighting.

## FEATURES

Download All Technical Drawings From [www.cedfabstd.co.uk](http://www.cedfabstd.co.uk)

**Temperature Controls.** The hot patisserie has 3x digital controllers, controlled by digital air temperature probes. Mains power is controlled by neon on/off switch. High temperature LED lighting is controlled by a neon on/off switch.

### Model Sizes.

The Kubus self help or assisted service heated patisserie is an open or closed glass front drop in hot patisserie, available in 600mm, 900mm & 1200mm lengths.

### 3 Tier Storage Capacity: 2 Tier Shelving & Large Base Display Deck.

The display features 2 no. heated shelves (adjustable in height) & a large heated display deck below. Each independently controlled zone has removable wire steel deck & shelf grid covers for use with packaged & cartoned heated produce. The display area is finished in food safe polyester coated steel.

**LED Lighting.** Canopy & shelf lighting in a low energy, high temperature LED fitting with opaque cover, colour 4000k.

### Model Type: Self Help Drop In Hot Patisserie (Rear Doors).

Re-stocking access is by energy efficient, side hinged double glazed rear doors. Digital controls are mounted on the operator side/ rear base panel.

### Model Type: Self Help Drop In Hot Patisserie (Fixed Back).

This heated patisserie is supplied as wall sited with a stainless steel back panel for positioning in an alcove, against a wall or back to back, forming a central island grab and go station! The digital controls are mounted on the customer side/ front base panel.

### Model Type: Assisted Service Drop In Hot Patisserie (Rear Doors).

Features a full glazed front screen that tilts forward for cleaning. Re-stocking access is through the energy efficient, side hinged double glazed rear doors.

**Panoramic Glass Side & Top Panels.** Top glass allows for serve over operation & side glass panels add natural lighting.

**Model Dimensions.** 600mm/ 900mm & 1200mm (L) x 750mm (D) x 843mm (H) Above Wktp/ 118mm (D) Below Worktop.

**System Design.** Static heating maintains food core, whilst convected heat surrounds the food surface. Stainless steel wire grid covers allow heat circulation around packaged food.

**Temperature Performance.** Factory set for 70 - 75°C (+18°C ambient), each display zone is adjustable.

**Finishes.** Worktop, rear frame & tank in 430gd s/steel, toughened glass sides, roof/ front screen panels. Display area finished in food safe polyester coated steel, wire steel deck & shelf grid covers.

**Power Supply.** Supplied with 3m lead & 13 amp UK plug (13A 230V 50Hz)

**Low Maintenance.** Easy clean surfaces and durable design ensure low maintenance.

**Equipment Conformity.** CE & UKCA Certified equipment.
