

Designline Serve Over Cold Patisserie

900mm Self Help Cold Patisserie (Fixed Back) Shown (Airflow In/Out Customer Side)

900mm Self Help Cold Patisserie (Rear Doors) Shown (Airflow In/Out Operator Side)

ABOUT

The energy efficient, environmentally friendly fan blown cold patisserie is part of the Designline range of freestanding serve over height patisseries - a choice of cold, hot & ambient commercial displays to suit either self help or assisted service retail operations.

The cold serve over circulates a constant stream of cold air throughout the display area, maintaining pre-chilled food between 2- 5 degrees C, just right for your fruit and vegetables, sandwiches, yoghurts, salads and cold drinks.

This mobile self contained display is available in five different lengths, with locking, adjustable height levelling castors to easily position the equipment around your serving space. The display comprises four chilled display levels each illuminated by LED lighting.

Digital temperature control, auto defrost & the auto condensate evaporation tray allow 24 hour operation if required. All Designline cold patisseries use a highly efficient, naturally occurring hydrocarbon refrigerant gas within hermetically sealed condensing units, which reduce energy consumption and your carbon footprint !

OPTIONS & FINISHES

Stainless Steel Front Fascia Panel

A ventilated or solid satin steel panel to suit particular model, in lieu of standard black panel.

Stainless Steel Side Panels (Pair)

A set of satin s/steel finish side panels, in lieu of standard black sides.

ACCESSORIES

Kickplinth (Set)

A magnet mounted set of s/steel kickplinths

FEATURES

Download All Technical Drawings From www.cedfabsltd.co.uk

Model Sizes.

The Designline self help or assisted service cold patisserie is an open or closed glass front cold patisserie, available in 600mm, 900mm, 1200mm, 1500mm & 1800mm lengths.

3 Tier Shelving & Deck Storage Capacity.

The display features 3 chilled glass shelves (adjustable in height & angle) & chilled s/ steel bottle storage deck below. The toughened glass shelving has product stops & 40mm(h) ticket strip holder to the front edge of each shelf.

LED Lighting.

Canopy & shelf lighting in a low energy LED fitting with opaque cover, colour 4000k.

Model Type: Self Help Cold Patisserie (Rear Doors).

Re-stocking access is by energy efficient, side hinged double glazed rear doors.

Cold Airflow: In Customer/ Out Operator (600mm) In/ Out Operator Side (Other Sizes)

Model Type: Self Help Cold Patisserie (Fixed Back).

This cold patisserie is supplied as wall sited with front control panel and stainless steel back panel for positioning in an alcove, against a wall or back to back, forming a central island grab and go station !

Cold Airflow: In Customer/ Out Operator c/w Wall Stand Off Bracket (600mm) In/ Out Customer Side (Other Sizes)

Model Type: Assisted Service Cold Patisserie (Rear Doors).

Features a full glazed front screen that tilts forward for cleaning. Re-stocking access is through the energy efficient, side hinged double glazed rear doors.

Cold Airflow: In Customer/ Out Operator (600mm) In/ Out Operator Side (Other Sizes)

Panoramic Glass Sides & Serve Over Top Steel Panel.

Flat steel top panel allows for serve over operation & side glass panels add natural lighting.

Model Dimensions.

600mm/ 900mm/ 1200mm/ 1500mm & 1800mm (L) x 750mm (D) x 1405/ 1415mm (H).

Refrigeration Type.

Fan blown, hydrocarbon r290 energy efficient refrigeration.

System Design.

Auto defrost with 24 hour operation & digital temperature control.

Temperature Performance.

0°C to 5°C (max 27°C ambient 55% humidity).

Auto Drip Tray.

Integral auto evaporator condensate drip tray (float & micro switch).

Finishes.

Base panels finish plastisol steel, colour black (BS 00E53). Worktop & rear frame 430gd s/steel, deck area 304gd s/steel, toughened glass shelving.

Power Supply.

Supplied with 3m lead & 13 amp UK plug (13A 230v 50Hz).

Environmental Benefits.

Hydrocarbon refrigeration system (r290) has low global warming potential (GWP) & zero ozone depletion potential (ODP)

Equipment Conformity.

CE & UKCA Certified equipment.
