

90° External & Internal Corner Units

90° External Corner Unit GC90EX

90° Internal Corner Unit GC90IN

ABOUT

These fully clad 90° corner units are part of the Glide range of mobile dining carts - a choice of cold, hot & ambient commercial catering carts that combine to form a food service counter solution as unique as your requirements!

These external or internal corner infill work stations have lockable castors & can be combined with other dining carts to change the direction of the servery run.

They are finished on all four sides to create internal or external 90° corners between the adjacent dining carts.

Their flexible nature means they can be adapted to different positions, helping ease customer flow around the servery.

Each corner unit has a plain s/steel 304 gd. worktop, front/rear and side base panels in leathergrain plastisol steel, colour merlin grey (BS 18B25) and lockable castors.

Tubular tray rails or tray slides can be added to the face of the external 90° corner unit, to continue the tray rail detail around the servery perimeter.

The internal 90° corner unit is designed to create an internal 90° corner & fit between two adjacent units, when fitted with tray rails or tray slides.

HEIGHT OPTIONS

Low Height Model (Glide Junior).

850mm or 800mm high option codes for junior/ primary use.

FEATURES

Download All Technical Drawings From www.cedfabsltd.co.uk

Model Sizes.

The Glide 90° corner units are mobile work stations with fully clad external fascia panels to all four sides, a 304 gd. s/steel worktop and lockable castors.

The external 90° corner unit is 900mm high, 700mm (l) x 700mm (d), whilst the internal corner unit is 900mm (h) x 1010mm (l) x 700mm (d) to allow tray rail/ slide function when they position next to an adjacent Glide unit (see images opposite).

Model Type:

The 90° corner unit can be used to create a continued counter worktop whilst allowing for an internal or external 90° right angle change of direction to the mobile counter run.

A tray rail/ tray slide option is available for the external angle corner unit GC90EX.

Suitability For Worktop Mounted Equipment.

The s/steel worktop is suitable for supporting non electrical counter top equipment also. (max 55Kg)

Low Maintenance

Easy, cleanable surfaces and a durable design ensure low maintenance for users.

Model Dimensions.

(Model GC90EX) = 700mm (L), 700mm (D), 900mm (H) with lockable heavy duty castors.
(Model GC90IN) = 1010mm (L), 700mm (D), 900mm (H) with lockable heavy duty castors.

Model Finishes.

The base front, rear & outer end panels are plastisol steel, colour merlin grey. Worktop is 304 gd. s. steel & all other steel surfaces are 430gd.

****This is an ambient unit with no electrical power supply****

ACCESSORIES & FINISHES

Selection Of Colour Finishes To

90° External Or Internal Corner Base Units.

11 alternative choices of durable steel, colour & wood effect for all external front/ rear & side panels.

Folding Steel Solid or Tubular Tray Slides (To 90° External Corner Unit).

Tray slides + 40mm (d) height = (h) - 55mm.

GC90EX

Glide 90° External Corner Unit

Code	Description	Capacity (Gn)	Dimensions (L x D x H mm)	Depth With Tray Slide Up/ Down	Weight (kg)
GC90EX	Glide 90 Dg External Corner Unit	n/a	700 x 700 x 900	1003/ 737mm	48

Model Description. Glide mobile dining cart, plain top amb. 90° square corner infill unit (no gantry), for external angled corner infill use between Glide units, 700 (l) x 700(d) x 900mm(h), plain s/steel worktop, front/rear/end base panels in leathergrain plastisol steel, colour merlin grey (BS 18B25), each side, lockable castors. (External Tray Rail Optional)

GC90IN

Glide 90° Internal Corner Unit

Code	Description	Capacity (Gn)	Dimensions (L x D x H mm)	Depth With Tray Slide Up/ Down	Weight (kg)
GC90IN	Glide 90° Internal Corner Infill Unit	n/a	1010 x 700 x 900	n/a	58

Model Description. Glide mobile dining cart, plain top amb. 45° rectangular corner infill unit (no gantry), for internal angled corner infill use between Glide units, 1010(l) x 700(d) x 900mm(h), plain s/steel worktop, front/rear/end base panels in leathergrain plastisol steel, colour merlin grey (BS 18B25), lockable castors.

HEIGHT OPTIONS

Low Height Model (Glide Junior) - 800/ 850mm (h)

Option Code	Description	Base Height (mm)	Optional Tray Slide Height (mm)
G800H**	Glide Base Unit 800mm Height	800	745
G850H	Glide Base Unit 850mm Height	850	795

**G800H Bespoke Option (With Extended lead Time)

Glide 90° Corner Units.

Option Description. Lower height option codes for junior/ primary use.

****800mm (h) base unit, c/w 100mm lockable castors. (Optional trayslide height becomes 745mm high)****

850mm (h) base unit, c/w 100mm lockable castors. (Optional trayslide height becomes 795mm high).
