ABOUT

The twin heated plate dispenser forms part of the Glide range of mobile dining carts - a choice of cold, hot & ambient commercial catering carts that combine to form a food service counter solution as unique as your requirements!

The dispenser has two spring loaded, self levelling plate storage sections within a s/steel worktop. Each spring loaded dispenser section is adjusted by lifting the four plate guide rods inwards/ outwards, to enable the storage of various diameter plates, between 8"-12" (205mm-305mm) with a total capacity of 88 -106 plates, depending on type. The springs keep the plates below rising to the top of the dispenser, as top plates are removed. Springs can be easily removed to facilitate smaller and lighter weight plates.

Each plate storage section is supplied with a stackable polycarbonate lid, for use during the plate heating process - to retain heat within the dispenser. The front/ side base panels are in leathergrain plastisol steel, colour merlin grey (BS 18B25), operator side panel is s/steel. The dispenser has lockable castors and control panel to operator side. It is supplied with a 3m lead and a 13A UK plug top (0.75 Kw).

The dispenser heats plates by use of a thermostat knob & fan assisted heating, which controls the internal air at a max. temperature of 85 degrees C. A neon power on/off switch is also fitted.

ACCESSORIES & FINISHES

Folding Steel Solid or Tubular Tray Slides.

Drop down tray rails or slides + 40mm (d) height = (h) - 55mm.

Selection Of Colour Finishes To Bases.

11 alternative choices of durable steel, colour & wood effect for the external front/ side base panels.

HEIGHT OPTIONS

Low Height Model (Glide Junior).

850mm or 800mm high options for junior/ primary use.

FEATURES

Model Type.

The Glide heated plate dispenser is a mobile, self levelling, spring loaded plate dispenser with internal fan assisted heating element, full front/ side fascia panels & s/steel worktop. Heating is controlled by thermostat knob (max 85 deg C). The dispenser has two storage sections - total capacity of 88 -106 plates, depending on type. These can be adjusted for 8"-12" (205mm-305mm) diameter plates. The dispensers lift out so springs can be removed, to allow for using the dispenser with smaller and lighter plates.

Model Dimensions.

The twin plate dispenser base is 2-1Gn (825mm) long x 700mm (D), 900mm (H) & has locking heavy duty castors.

Model Finishes.

Base and outer end panels in plastisol steel, colour merlin grey. The dispenser worktop is made from 304 gd s/steel & other external surfaces are in 430gd.s/steel.

Low Maintenance.

Easy, cleanable surfaces and a durable design ensure low maintenance for users.

Finishes & Options.

The heated plate dispenser can be customised with many accessories such as tray slides, tray rails, colour finishes and low height versions for junior/ primary age use.

A wall sited version of the heated plate dispenser is also available, for alcoves or recesses, c/w front facing controls, low heights options & colour finishes for base panels & sides. (See separate model GWSHPD2).

Power Supply.

The cupboard is fitted with a 3m lead & 13 amp UK plug (13A 230v 50Hz). The unit has a 1.4kW electrical supply.

Equipment Conformity. CE & UKCA Certified equipment.

Temperature Controls.

The fan assisted heated plate dispenser features a thermostat control. Mains power is operated by individual neon indicator switch.
