With its range of trolleys, Tournus covers all applications from the kitchen to the table, with the same high standards of ergonomics safety and hygiene.

Only one quality of material : manufactured entirely in stainless steel. 100 % welded.

More than **100 standard models** (see price list) without taking into account the various wheel options.

## CLEARING TROLLEYS

- Pressed steel trays. 40 mm deep fitted with a sound deadening pad and rounded edges to prevent injury.
- Entirely welded construction assuring highest rigidity (max load 150 kg).
- The 530 or 600 mm trays allow the GN 1/1 pans to fit perfectly.
- Options : with single handle and gallery, delivered flat packed (screwed trays).

## PLATE TROLLEYS

- Sturdy : fully welded construction in stainless steel.
- Ergonomics : the sloped base means that crockery can be transported in perfect safety.
- Fitted with either safety grids to stop plates falling, or 2 secure stacking partitions and a front grid that is easy to remove and hooks onto the rear of the trolley.
- **Trolleys with raised platform** : height 460 mm for trolley 200 plates and 485 mm for trolley 400 plates.

## DISHWASHER RACK DOLLEYS

- 7 models with or without handle :
- rack dolleys with ABS base
  - stainless steel rack and tray dolleys
  - "GA" rack dolley (economical model).

## CONSTANT LEVEL PLATE DISPENSER TROLLEYS

- A complete range for all types of use : heated trolleys, neutral trolleys, for storing plates in a cold room, universal trolleys for all types of crockery (bowls saucers, oval or rectangular plates).
- Easily adjustable for all plate diameters.
- Removable plate dispensers on all trolleys.
- The trolleys are rounded inside between the base and the sides, and have drainage holes in the bottom. They are very easy to clean.
- Heated models are insulated with rockwool providing rapid and even heating.

## CAFETERIA TROLLEYS

- A large range : 7 standard models of trolleys with or without side panels. Insertion lengthways 320 to 370 mm. Insertion widthways 400 to 480 mm or 480 to 560 mm.
- Sturdy : fully welded construction in stainless steel. 25 x 25 mm square tubes and a 4,8 mm diameter stainless steel wires.
- The H-shaped design means trolleys are semi-stackable, thus saving space during transport and storage. Trolleys with side panels : the laminated panels are fixed with clips for easy removal.
- **New** : anti-fall clips for trays on each level.

## BAIN-MARIE HEATED TROLLEYS

- Stainless steel construction for pans GN 1/1 depth 200 mm (not supplied)
- Independant well regulated by separated thermostats with luminous indicator.
- Heating by shielded resistances. Drain with 1/4 turn valve.
- Protection bumpers and lower shelf.

## MOBILE CONTAINERS

- 140 litre stainless steel containers, with strainer and overflow.
- 140 litre elevated stainless steel containers, with strainer and lever operated draining plug.

## SLIDE BARS TROLLEYS

- Sturdy : fully welded construction in stainless steel. 25 x 25 mm square tubes.
- Slide bars with rounded edges to prevent injury, fully welded with bump stops at the end.
- A broad range for all uses: trolleys for GN 1/1 and 2/1, trolleys for euronorm 600 x 400 mm.
- Also GN stackable trolleys.

## OUR GUARANTEE FOR THE SATISFACTION OF PROFESSIONALS
