Solutions for working and welcoming in safety

**TOURNUS**  
**EQUIPEMENT**

# SANITISER POST ELECTRONIC

CED electronic sanitising post & manual pump dispenser posts are specially designed to help maintain a hygienic environment and allow you to combine safety and practicality at low cost.

## Practical

You can easily install or relocate the sanitising post and electronic dispenser in many locations as there is no electrical connection. The dispenser uses (4 x) AA batteries – not included.

There is also an option for a UK plug with 2m electrical lead.

Sanitiser Post & Electronic Dispenser:  
(Alcohol Gel)  
Model - HSPESD  
Dimensions - 1295mm (h) x ø63mm (w) x ø320mm (base)  
Weight - 7.6 Kg  
List Price - £294.58

OPTIONAL:  
Electrical Connector Plug: 2m Lead For  
Dispenser - 13A 230V UK  
Model - ESPDP  
List Price - £15.61

## Economic

This free-standing steel post and electronic sanitising gel dispenser can be placed in several locations for efficiency and security, to encourage PPB (personal protective behaviour).

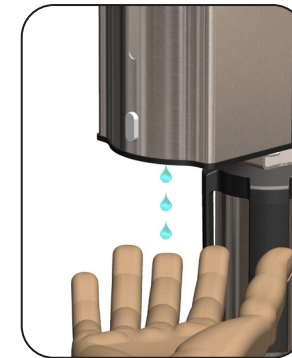

The sanitiser post features a large dispensing capacity of approx. 500 doses. The slotted window in the electronic dispenser provides easy monitoring of gel level.

## Easy to use

By placing your hands underneath the electronic dispenser, the infra red detection cell discharges a measured dose of sanitising gel. The dispenser is simple to refill too.

## Eye Catching

Stylish function & a mirror finish, the post can be strategically placed in multiple locations where hygiene is to be maintained..at the entrance to your establishment, reception desks, offices, changing rooms etc.

# SANITISER POST MANUAL PUMP

The CED sanitising post & manual dispenser is specially designed to help maintain a hygienic environment and allow you to combine safety and practicality at low cost.

## Practical

You can easily install or relocate the sanitising post and heavy duty manual dispenser in many locations as there is no electrical connection.

Sanitiser Post & Manual Pump Dispenser  
(Alcohol Gel)  
Model - HSPMPD  
Dimensions - 1114mm (h) x ø63mm (w) x  
ø320mm (d)  
Weight - 7.2 Kg  
List Price - £166.11

## Economic

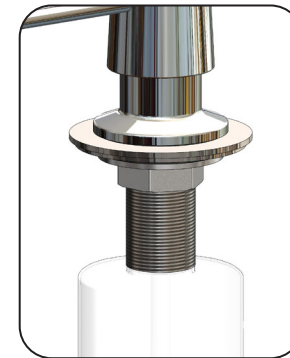

Just apply light pressure with the forearm to dispense 1-2ml of the sanitising gel. The 300 ml dispenser suits alcohol gel  $\geq 60\%$  & is simple to refill. It just lifts out of the post to enable unscrewing of the alcohol gel storage bottle.

## Easy to use

Just apply light pressure with the forearm to dispense 1-2ml of the sanitising gel. The 500 ml dispenser suits alcohol gel  $\geq 60\%$  & is simple to refill. It just lifts out of the post to enable unscrewing of the alcohol gel storage bottle.

## Eye Catching

With its 360 degree operation, the CED sanitising post and dispenser can be strategically placed in multiple locations where hygiene is to be maintained.. at the entrance to your establishment, reception desks, offices, changing rooms etc.

# SIGNAGE POST

This portrait orientation sign holder is an ideal communication point for advising on social distancing, customer flow or temporary access restrictions.

## Practical

You can easily install or relocate the signage post in many locations as there is no electrical connection.

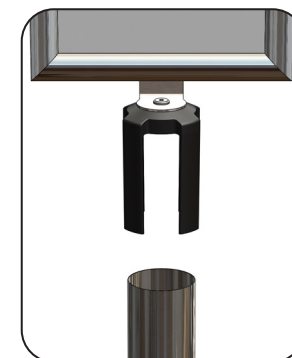

Signage Post & A4 Sign holder:  
(No Dispenser)  
Model - HSPSH  
Dimensions - 1416mm (h) x ø63mm (w) x  
ø320mm (base)  
Weight - 8.6 Kg  
List Price - £169.31

## Easy to use

It features a chrome effect frame with a simple click fastening outer perimeter, to allow access to fit or replace communication signs behind the plastic front. The visible printable area is 208mm (w) x 295mm (h).

## Eye Catching

With a Chrome effect frame and a mirror finish post not only does this signage match the electronic and manual pump dispenser posts but it also allows any personalised sign to be added in to suit the customers branding.

# GUIDE POST – ROPES & HOOKS

CED's elegant mirror finished stainless steel guide posts and braided guide ropes are specially designed to help form waiting lines, direct the flow of crowds, control access and enhance safety. Available with an electronic dispenser & signage!

## Practical

These robust, independent and flexible barrier solutions clearly identify waiting areas and can be inter-connected in four different directions, via the four way s/steel rope hook receiver on the post top.

### Guide Post: (For Ropes)

Model - HGP

Dimensions - 1070mm (h) x ø51mm (w) x ø320mm (base)

Weight - 6.8 Kg

List Price - £123.76

### Guide Ropes:

Model - HGRR (RED) or HBRB (BLACK)

Dimensions - 1500mm (l) x ø27mm (w) x ø320 (base)

Weight - 0.5 Kg

List Price - £43.33

### Guide Post & Electronic Dispenser (For Ropes)

Model - HGPESD

Dimensions - 1280mm (h) x ø51mm (w) x ø320mm (base)

Weight - 8.7 Kg

List Price - £291.14

### Guide Post & A4 Sign Holder (For Ropes)

Model - HGPSH

Dimensions - 1425mm (h) x ø51mm x ø320mm (base)

Weight - 8.7 Kg

List Price - £170.56

## Economic

This free-standing steel post and sanitising gel dispenser can be placed in several locations for efficiency and security, to encourage PPB (personal protective behaviour). The spring loaded dispenser has been tested for a lifetime delivery of 50,000 doses too!

## Easy to use

Each rope is 1.5M long and features chrome alloy circular clips at each end, for a simple post connection. Ropes are sold separately to the posts – remember to order 1 less rope than the set of posts required.

The solid, weighted, stable post base is hidden under a mirror finish outer cover. The base features an integral rubber gasket which prevents floor damage.

## Eye Catching

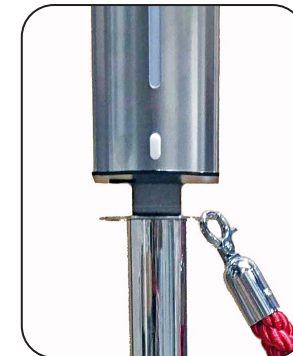

The posts are linked together with hanging barrier ropes to cordon off the desired space. You can choose between classic red or black Ø 28mm braided guide ropes.

### OPTIONAL FOR HGPESD:

Electrical Connector Plug: 2m Lead For Dispenser - 13A 230V UK

Model - ESPDP

List Price - £15.61

# RETRACTABLE BARRIER POST

CED's elegant mirror finished stainless steel barrier posts with their integral retractable belts, are specially designed to help form waiting lines, direct the flow of crowds, control access and enhance safety.

## Practical

These robust, independent and flexible barrier solutions clearly identify waiting areas and can be inter-connected in four different directions, via the four way moulded belt clip receiver in the post top.

Barrier Post: (Retractable Belt)  
Model - HBPR (RED) or HBPB (BLACK)  
Dimensions - 1060mm (h) x ø63mm (w) x ø320 (base)

List Price - £109.86

Barrier Post & Electronic Sanitiser  
Dispenser: (Retractable Belt)  
Model - HBPRES (RED) or HBPBES (BLACK)  
Dimensions - 1060 + 240mm (h) x ø63mm (w) x ø320 (base)  
Weight - 7.8 Kg  
List Price - £301.67

Barrier Post & A4 Sign Holder  
(Retractable Belt)  
Model - HBPRSH (RED) or HBPBSH (BLACK)  
Dimensions - 1060mm (h) x ø63mm (w) x ø320 (base)  
Weight - 8.8 Kg  
List Price - £181.16

## Economic

This free-standing steel post and electronic sanitising gel dispenser can be placed in several locations for efficiency and security, to encourage PPB (personal protective behaviour).

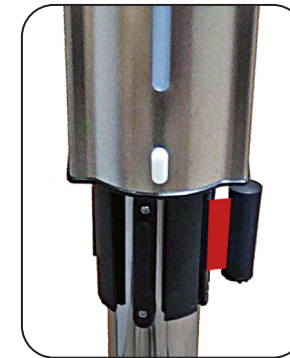

## Easy To Use

The solid, weighted, stable post base is hidden under a mirror finish outer cover. The base features an integral rubber gasket which prevents floor damage. The posts are linked together with retractable 50mm wide nylon barrier belts, to cordon off the desired space. You can choose between classic red or black belts.

## Eye Catching

Each tape is 2M long and features lockable connection clips that slot onto the adjoining post, for a simple post connection. Just turn the top of the connection clip to lock it to the four way connection point on the post top.

OPTIONAL FOR HBPRES OR HBPBESD:  
Electrical Connector Plug: 2m Lead For Dispenser -  
13A 230V UK  
Model - ESPDP  
List Price - £15.61

# WALL MOUNTED ELECTRONIC SANITISER / RETRACTABLE

CED's electronic sanitisers & retractable belts available as wall mounted units. These are ideal where space is restrictive.

## Practical

These sanitiser points allow you to combine safety and practicality at low cost and are ideally suited to any area where they can be fixed to walls.

Wall Mounted Electronic Sanitiser Dispenser:  
Model - ESD  
Dimensions - 203mm (h) x 100mm (w) x 92mm (d)  
Weight - 7.6 Kg  
List Price - £143.72

Wall Mounted Retractable Barrier:  
(Extending 3M Belt)  
Model - HWMPR (RED) or HWMPB (BLACK)  
Dimensions - 124mm (h) x 114mm (w) x 92mm (d)  
Weight - 0.5 Kg  
List Price - £46.48

## Economic

These wall mounted electronic sanitising gel dispensers & belts can be placed in several locations for efficiency and security, to encourage PPB (personal protective behaviour).

## Easy To Use & Fix

By placing your hands underneath the electronic dispenser, the infra red detection cell discharges a measured dose of sanitising gel and it's simple to refill too. The sanitiser has a large dispensing capacity of approx. 500 doses. The slotted window in the electronic dispenser provides easy monitoring of gel level.

The barrier belt is retained in the body under tension, simply pull the belt from its housing and attach it to the wall mounted belt receiver, by sliding it down and on to the bracket. By rotating the base of the belt when attached to the bracket, it will lock to prevent tampering !

OPTIONAL FOR HBPRESO OR HBPBESD:  
Electrical Connector Plug: 2m Lead For Dispenser -  
13A 230V UK  
Model - ESPDP  
List Price - £15.61

Easy to move:  
- «Adult» column: 3.82 Kg  
- «Children» column: 3.34 Kg

Delivered assembled, ready to use.

Adults sanitising post & dispenser  
height : 1075 mm  
Model - 806 280  
List Price - £427.00

Children sanitising post & dispenser  
height : 875 mm  
Model - 806 279  
List Price - £393.00

### Economic

This free-standing steel post and sanitising dispenser can be placed in several locations for efficiency and security.

### Easy to use

Just apply light pressure with the forearm to dispense the sanitising gel. The dispenser is easily removable and refillable too.

### Aesthetics 360°

With its 360 degree function, the Tournus sanitising post and dispenser can be strategically placed in multiple locations where hygiene is to be maintained : at the entrance to your establishment, reception desks, offices, changing rooms etc...

### Children model

It's ideal for helping control hygiene in schools too. The Children's version of the sanitising post and dispenser make it easy to instill the importance of hygiene in collective environments.

Height : 875 mm

# MOBILE GEL DISPENSER (FOOT OPERATED)

Gel dispenser on wheels for easy movement according to your indoor or outdoor needs. Thanks to its large capacity of 2 x 5 liters, the gel and liquid dispenser is ideal for high-traffic shops or businesses. Works mechanically without contact with the device.

## Anti-Theft

Possibility of hanging an anti-theft system (chain, cable) on the axle of the wheels and on the handle. Possibility of securing the cans using a padlock (not supplied) which can be positioned at the rear of the hood.

Durable and robust:  
Construction entirely in food-grade stainless steel (sheet metal and screws).

GN 1/9 collecting container in polypropylene.

Easy to move:

2 wheels Ø 80 mm + handle retractable

Empty weight: 14 kg

With cans (not supplied): 25 kg

Capacity :

2 cans of 5 liters

2500 doses per container

Dimensions :

Depth: 285 mm

Width: 295 mm

Height: 1000 mm

Model - 806 286

List Price - £633.00

## Economic

Large capacity with 2 5-liter canisters (2 stacked compartments), one for the canister connected to the pump and the other for the reserve canister. Each container can deliver 2,500 doses. Save time, space for gel refills.

## Easy To Use

Pressing the pedal triggers the dispensing of a dose of gel or hydroalcoholic liquid. The foot control prevents hand contact with the support. Fully mechanical, the dispenser requires no power supply. The dispenser has 2 compartments allowing the installation of 25 liter cans. Suitable for all available standard container models thanks to a dip tube. The slotted window provides easy monitoring of gel level.

## Mobility

The dispenser is equipped with a handle and 2 large wheels for ease of movement or storage. Retractable handle to save space.

# FREE-STANDING WASH BASIN

The free-standing washbasin is a complete station that combines all the functions of a cleaning station. It is a robust and ergonomic equipment well suited for recurring trips and frequent handling.

## Ergonomic

Easy to move thanks to the 2 fixed wheels Ø 125 mm and the arched handle over the top. The wash basin has 2 x 13 litre containers, one for clean water, the other for waste water. When the unit needs to be moved these containers are held in place by a (movable) bar. A space is provided underneath the bowl to store 2 spare batteries.

## Robust

Designed for use in difficult conditions, the free-standing wash basin is made of stainless steel. It has an apron round 3 sides.

Stainless steel construction. 2 fixed wheels and handle for easy moving. Basin 345 x 245 mm, depth 115 mm. Foot control. 2 cans of 13 litres (one for clear water, one for waste water). Supplied with manual soap dispenser 500 ml, paper towel dispenser (one towel roll Ø 120 mm, length 208 mm, supplied), hook-on dustbin.

L 415 x W 345 x H 1200 mm

Model - 806 517

List Price - £865.00

## Available in heated version

Self-contained hand wash-basin with built-in-water heater integrated electric water heater for instant hot water production. Selection button for continuous adjustment of cold water to hot water and vice versa (up to 45°C). Supplied with 230 V 16 amp connection. Power rating 3.7 kW. Operational stop facility to protect the water heater when there is no water in the jerrycan.

L 415 x W 345 x H 1200 mm

Model - 806 519

List Price - £2312.00

## Perfectly mobile

The large, rounded handle provides safe and comfortable handling. The two large, robust, fixed wheels, 125 mm in diameter, provide excellent stability and easy movement.

# HAND WASH-BASINS

Hygiene guaranteed with all our knee-operated wash-basins that avoid manual contact. The water supply is triggered by pressing the pallet on the facade.

## TS 2000N with electronic control

The Tournus TS 2000N Hand Sink, 350mm x 275mm x 80mm deep well, electronic control, infrared detection, includes: mixer tap, (2) stainless steel braided hoses, trap, polypropylene siphon, wall mount bracket, 500ml manual soap dispenser, nail brush & waste bin, 6 volt lithium battery operated, stainless steel monoblock construction.

Model - 806 302  
L 400 x W 400 x h 755 mm

L 330 x W 330 x H 170 mm  
List Price - £206.00

## JANITOR SINK

Stainless steel welded construction, clad to 3 sides. 4 tubular legs 40 x 40 with jacks. Hot and cold water pre-mixer tap with check valves and temperature control. ½" manual control mixer tap. Delivered with PVC sink pipe, overflow tube and goose neck. Storage buckets with peripheral surround to prevent products from overflowing. Grid supporting stainless steel buckets, removable. Drainage: 1.5" plug hole.

Model - 806 536  
L 500 x W 600 x H 890 mm  
List Price - £726.00

# STERILISING EQUIPMENT

Tournus s/steel sterilizing cabinets are a neat and hygienic solution to knife sterilization in your kitchen area.

## Sterilising Cabinets

The cabinets are available with either 10, 20 or 40 knife capacity.

They feature a UV radiation light with automatic cut-off feature when the transparent acrylic door is opened.

An externally mounted control knob allows the period of UV exposure to be adjusted up to 2 hours.

(1.5 hr operating time recommended).

The cabinet itself has rounded edges and sloping tops to prevent dust build up or inappropriate storage.

The magnetic door features pull handle and steel hinges.

Each cabinet size is available with or without lock – mounted in door frame if required.

The cabinets are IP24 rated and feature various methods of knife storage inside, i.e. magnetized horizontal bar (10 knife capacity), folded steel grid slotted (20 knife capacity) or S/steel wire bar frame (20 + 40 knife capacity).

Each cabinet comes complete with 1.2 m electrical cable and plug top, for connection to a 230v 50 Hz supply ( 15-30 W)

Model - 806 421UK
