

MERCHANDISERS - PRICE LIST 2023

CHILLED · HEATED · LARGE · SLIM · PLUS MANY OPTIONS

CED FABRICATIONS LTD

Ready To Serve

With 3 manufacturing sites to better target our customers needs, CED are one of the most successful UK manufacturers of commercial catering equipment, with over 150 dedicated employees providing an extensive range of kitchen equipment.

At CED we pride ourselves on our innovative, stylish and reliable ranges of bespoke and standard commercial catering equipment.

As we continue to gain market share, our merger with Tournus Equipement confirms CED's investment in future business growth. At the heart of our positive growth lies continued investment in ourselves. Staff training, product development, design software, component sourcing and manufacturing plant & processes.

The Tournus manufacturing partnership has enabled CED to extensively increase our UK product range like never before, introducing many new innovative commercial kitchen products, from plate dispensers to serving trolleys and beyond, all available in our Tournus Equipement Price List.

CED's unequalled capacity to fulfil our customers many diverse requirements, simply increases year on year. Whether that need is for kitchen fabrication components, the latest in energy efficient drop in displays and patisseries, or the most complex of bespoke servery counters. With a fleet of delivery vehicles operating from three fully equipped manufacturing and stock holding facilities, we're ready to serve !

Howard Rishton
Managing Director.

MERCHANDISERS

Chilled & Heated

CED's range of free standing chilled & heated high capacity merchandisers, are the environmentally friendly answer to volume grab & go retail sales.

Chilled gently by hydrocarbon (HT) refrigerant, these chilled versions are available in a choice of 5 standard widths, 2 depths and fitted with either 3 or 4 adjustable steel shelves. Internal display is maximised & traditional bottle well storage is provided on a deck below the display tiers. A stainless steel interior with bright polished back & inner side panels offers a truly inviting merchandising space, where food is enhanced by horizontal & vertical diffused LED lighting (4000k).

Heated using a combination of both static, fan blown and convected hot air. These heated units hold temperature in the cabinet between 70-75 degrees celsius. Each of the different heated zones can be independently set by digital displays mounted behind the front panel. On/off lighting switches are located in the canopy and the cabinet can be used as an ambient merchandiser, if required, by using only the lighting.

Chilled

Heated

Certificate Number 7895
ISO 9001, ISO 14001

3 TIER SLIM CHILLED Merchandiser (HT)

Available with night blind, roller shutter or sliding doors.

Main Features

- › Compact mobile chilled merchandiser in a range of sizes, for retail locations where space is a premium.
- › Self help (fixed back) application. (Rear door option available).
- › Available in 600, 900, 1200, 1500 & 1800 mm wide.
- › Slimline unit depth 635 mm (+50), unit height 1725 mm.
- › 3 tier steel adjustable height shelving, for increased product display area.
- › Cold deck area, typically used as bottle storage.
- › Product illumination is from horizontal & vertical diffused LED lighting (4000 Kelvin).
- › 24-hour operation.
- › Superstructure in bright polished (internal) and satin (external) steel.
- › Bright polished steel rear back panel for typical use in wall sited situation.
- › Night blind models - Fitted with energy saving retractable night blind.
- › Lockable roller shutter models - Overhead type, twin locking, insulated aluminum lath, silver finish. (unit height 1725 mm).
- › Double glazed front door models - Fitted with dual sliding double glazed doors that considerably improve energy saving.
- › 40 mm tall 'point of sale' display/ ticket strips are fitted as standard.
- › Removable steel front fascia panel, for ease of cleaning/ service maintenance.
- › Modular removable deck plate system for easier cleaning and maintenance.
- › Stand off brackets for wall siting included, to ensure adequate unit ventilation.
- › Adjustable final positioning/levelling feet.
- › Supplied with 2m lead, cord wrap & parking socket, for connection to a single 13 Amp socket (13A 230V 50 Hz).

Additional Features

- › Features high-level digital temperature display and control panel (customer side).
- › Features 'tamper proof' temperature control facility.
- › Features integral energy efficient chilled R290 hydrocarbon refrigeration (HT).
- › Integral automatic condensate water evaporation eliminates the need for site drainage.
- › Can achieve temperatures of 0°C to 5°C (max 27°C ambient 55% relative humidity).

Food Display Types

Drinks:
Still & carbonated, bottled, canned or carton, water, dairy, lemonade, wine, beer, lager, fruit juice & health drinks. Shelving typically accepts 1/2 litre 240 mm (h) cola bottles/ sandwich packs etc.

Food:
Wrapped sandwiches, baguettes, rolls & barm cakes, salad, pasta, cheese snacks, cream cakes & pastries, cakes, yoghurt, cereals, fruit in juice & fruit.

3 TIER SLIM HEATED Merchandiser

Available with night blind.

Main Features

- > Mobile hot holding merchandiser in a range of sizes, for retail locations where space is a premium.
- > Ideal for the display of pre-heated cooked food, packaged & cartoned heated produce, whether for snack, breakfast or lunch offers.
- > Heated by both static heat and fan blown heated air.
- > Self help (fixed back) application.
- > 3 tier food display levels comprising 3 steel/ coated aluminum shelves and hot deck display area.
- > Shelving is adjustable in both height/angle with removable steel wire food display grids on all display levels.
- > Vertical & horizontal covered fluorescent lighting to display area (4000 Kelvin) – to match chilled merchandiser models.
- > Fitted with an energy saving retractable insulated night blind.
- > Available in 600, 900 & 1200mm wide.
- > Slim unit depth 635mm, unit height 1725 mm.
- > 24-hour operation.
- > Superstructure in bright polished (internal) and satin (external) steel.
- > Bright polished steel rear back panel for typical use in wall sited situation.
- > Cabinet can also be used with lighting only as an ambient merchandiser.
- > 40 mm tall 'point of sale' display/ ticket strips are fitted as standard.
- > Supplied with 2m lead, cord wrap & parking socket, for connection to a single 13 Amp socket (13A 230V 50 Hz) – 1200mm wide models supplied with 32A commando plug.
- > Removable steel front fascia panel, for ease of cleaning/ service maintenance.
- > Modular removable shelving system for easier cleaning and maintenance.
- > Adjustable final positioning/ levelling feet.

Additional Features

- > The temperature of each of the 4 display tier heated zones can be independently set, using digital displays mounted behind the front panel.
- > Features 'tamper proof' temperature control facility.
- > Product temperature maintained at 70- 75 deg. C in +18 deg. C ambient.
- > User friendly 'On/ Off' and lighting switches discreetly mounted in canopy.

Food Display Types

Food:

Pre-heated cooked food, packaged & cartoned heated product. Hot wrapped buritos, sandwiches, rolls, breads & baguettes, hot savouries, pies, pastries & sausage rolls, chicken, pizza, cartoned soup and oats.
